ITEM #1: Lorn Driven Back by Brant at Fox Hollow

7/3

Captain Brilliant of Lorn led over 100 horsemen over hills and through forests to attempt a raid on the Brant village of Fox Hollow (V14). The Brant druid Elowin and Captain Melchior, however, were present with a mixed force of around 150 to support the village militia. Although the casualties were similar, the Lorn force broke and fled the field to escape home through the woods. The Brant troops captured and plundered the Lorn camp, capture gold, arms, supplies and horses in abundance.

ITEM #2: Disastrous Delve

Reports have come to Council Mage Perconto that a party from Fang attempted to loot Castle Perilous (R7), the abandoned fortress on the west shore of the Stark Pool that is said to be guarded by powerful beings of Law. 4 dastardly villains of Baron Fang's inner circle and a handful of orc flunkies were all slain. Gods be praised!
